

The Team Never Quit Mk12CF Special Purpose Rifle (SPR) was designed by Marcus Luttrell and his former SDVT-1 teammate and G2 Precision Co-Founder, Garrett Golden. It is based on the highly popular rifle developed by the Naval Surface Warfare Center (NSWC) and used extensively by SOCOM operators. The Mk12 is one of the preferred weapons of Navy SEALs and the special operations community. Marcus carried the Mk12 on Operation Red Wings.

The TNQ Mk12 like the original Mk12 is reliable and accurate. In addition, the TNQ Mk12 is much lighter, maintains sub MOA grade accuracy with a broader range of ammunition and is ergonomically superior. To quote Marcus: *"This is the gun I would want to take with me into battle"*, pretty much says it all...

UPPER RECEIVER

- Mil-Spec Forged 7075-T6 Aluminum Hard Anodized Type III Finish
- G2 Forward Assist
- Direct Gas Impingement Operated, Semi Automatic

BOLT CARRIER GROUP

G2 with Nickle Boron Coating

CHARGING HANDLE

Raptor Ambi by AXTS

MAGAZINE

One 20-Round Magpul® Magazine

BARREL

- Proof Research 18" Carbon Fiber Reinforced 416R Stainless Steel,
 - 223 Wylde 1:8 Twist Single Cut Groove - Rifle Length Gas System
- G2 Precision 18" 416R Stainless Steel,
 - 223 Wylde 1:8 Twist Single Cut Groove - Rifle Length Gas System

Match Grade, Hand Lapped, Titanium Compensator Brake, 1/2"-28

LOWER RECEIVER

- Mil-Spec+ Forged 7075-T6 Aluminum - Hard Anodized Type III Finish
